Dear ~~Dr. McAllister~~ Harmon:

I would like to thank you, very much for your support for the Symposium which was held to honor Professor Minor J. Coon at the FASEB Meeting in Atlanta, Georgia in April. Your contribution for this symposium was very helpful in allowing us to support what I think was an outstanding program honoring Professor Coon. I have enclosed a copy of the program which was distributed at the Symposium. We had originally hoped to have somewhere between 100-125 people attend the Symposium; however, we were very surprised and pleased to find that at the peak in the afternoon there were more than 300 people in attendance at the Symposium. In addition, we have made arrangements for the proceedings of the Symposium and several other selected manuscripts to be printed as an issue of the FASEB Journal which will be dedicated to Professor Coon and will be concerned with various aspects of cytochrome P450 and drug metabolism. If it is possible, we will acknowledge your sponsorship of the Symposium in the FASEB Journal.

Once again, I would like thank you very much for your very generous support of this Symposium honoring one of the most outstanding investigators to contribute to the field of cytochrome P450 and drug metabolism.

With my best regards.

Sincerely,

Paul

Paul F. Hollenberg, Ph.D.

Harmon -
Thanks again for all of your support - it was greatly appreciated.
Paul
